

Welcome to Polo

When putting together this drinks list for you we thought long and hard about what we were going to put in print...

The result is a relatively small but interesting selection of New Zealand wine and beer, along with some of the Rest of the Worlds' various offerings. Each wine was tasted by us with our food in mind, and was chosen for its ability to compliment our menu.

Being proud New Zealanders, the wine selection is Kiwi predominant with a few "choice" selections from around the globe. You will also notice that a lot of our wines are available by the glass & flask so you can try almost everything!

Beer is the new wine! So as well as some classics we have added a few new and interesting brews from around the world to keep you lubricated!

If you have selected a glass or bottle and it is not what you expected, we will do our best to remedy the situation. However, please tell us on the first taste not the last!

We hope you enjoy your evening with us and if you would like a little help or friendly advice about our food or wine please don't hesitate to ask.

Happy dining!
